No. 4

Quarterly Conference

**Apostles Smoot and Clawson
and President McMurrin
in Attendance.**

Wise Council and Eloquent Exhortations.

On last Saturday and Sunday was held one of the largest and most interesting conferences ever held in Tablar Stake.

Even the morning session on Saturday which is usually light brought out something over 300 people. Magrath finished the singing the first day and Raymond the second.

Magrath gave us some very enjoyable singing in quartets and duets by Mrs. Lamb, Miss Fletcher Jarred Mercer and Mr. Fletcher.

Apostle Clawson's talks were weighty and convincing. Apostle Smoot impressed his hearers with

his earnestness and grasp, and Elder McMurrin made one of the most eloquent appeals for better spiritual citizenship that has been heard in Raymond.

Stake and Ward conditions were reported by the various presiding officers as being satisfactory. Two new quorums of seventies are to be organized, some changes were made in the Stake Sunday School board, J. U. Allred going in as first assistant, Albert Powell as secretary and Mrs. Mabel Powell and Mrs. Sarah Higgins as members of the board.

The Relief Society held a conference on Monday.

A.L. & S. Sells Big Tracts

**Spring Coulee and Dry
Coulee**

The day of the big tract like the buffalo is rapidly disappearing and the latest contribution to extinction of the big tract species are the sales made by the A. L. & S. of their Spring Coulee and Dry Coulee ranches which aggregate some where about 30,000 acres. The Kerr people got the Dry Coulee Ranch lying North of Magrath while Mr. Reynolds secured the Spring Coulee tract.

The work of moving the cattle from Spring Coulee will be industriously carried out by Manager McCarty until the fields are cleared ready for farming.

The present owners will cut the tract into small farms.

Weeds and Smut

In 1905 weeds and smut cost the farmers of Western Canada \$30,000,000.00.

Alberta's share of this was very small and may easily be less, for the remedies are simple and in the farmer's own hands.

SEED—No seed should be sown unless it is cleaned two or three times.

FEED—Many weed seeds pass through the digestive organs of horses without their germinating powers being affected and in this manner many weeds get on the land unsuspected by the farmer.

All feed should be crushed, but it should be remembered that many of the worst weeds have seeds too small to be crushed, and it will be better to have it fanned before it is crushed.

SMUT IN WHEAT—Stinking smut is a plant which grows within the wheat plant and its seeds or spores take the place of the grain when the crop ripens. Smut too are thus simply masses of spores enclosed in the outer shells of wheat grains. Threshing breaks these shells and the spores become scattered and stick to the other grains of the crop.

If grain bearing smut spores are used for seed the spores germinate with the seed and grow up with the wheat plants and the crop is again smutty.

It is important therefore that these smut spores be destroyed before the seed is sown, and the best

Disastrous Runaway

**Wm. Palmer gets Broken
Wrist.**

On Saturday evening last Messrs J. H. McMurrin Wm. Palmer and W. H. Jeffrey went over to Magrath to organize another quorum of officers with Mr. Chas. McCarty team known among local horsemen as "the terrors."

On the return trip which was made after nightfall, and on a right angle turn in the road the corner of the fence was collided with and Messrs. Jeffrey who was driving and Mr. Palmer were thrown from the vehicle and the frightened "terrors" began describing circles in the four rod lane with Mr. McMurrin alone in the vehicle on the rear seat and the lines somewhere underneath the horses feet, the "barbed wire fence was collided with and Mr. McMurrin was thrown about fifteen feet clear of the vehicle and wire alighting on his shoulder which though badly bruised was not broken. Mr. Palmer had his arm broken and Mr. Jeffrey escaped with a few bruises and scratches which though painful are not serious.

Mr. Palmer was brought to Raymond the same night for treatment Messrs. Jeffrey and McMurrin remaining until morning at the home of Mr. C. D. Peterson.

When found the horses were standing in a pool of blood and so badly mangled that it was with difficulty they were brought home.

The vehicle was wrongside up and so far had it been dragged in that position that one of the wheels was off the four holdings in place, having come off running backward.

Though a bad runaway it is fortunate that none of the occupants of the vehicle were seriously hurt than they are.

Way to do this is to treat the seed with a solution of Bluestone or Formalin.

Bluestone should be in the proportion of one pound to ten gallons of water. Formalin, one ounce to one gallon of water.

Seed may be sprinkled or dipped but every grain should be thorough wet.

If seed is very smutty it should not be sown, an efficient treatment of it is impossible.

Prevention is better than cure, and it is easier to keep the farm clean if you begin clean.

Cut Worms In The Beet Fields

About the end of October last year the Department of Agriculture at Edmonton issued a newspaper article which contained a short life history of the cut worms and web worms that were attacking the beet crop at that time. Some specimens of the cut worm were collected by the Department for experiment, and from these it has been learned that probably very many of the cut worms in the fields are doomed before spring. Two enemies are attacking them, a fungus disease and a clear winged fly. This fly lays its eggs in the body of the cut worm, in which the maggots which hatch out from them live till they are full grown and ready to enter the pupal stage when they kill their host and come to the outside and spin their cocoons.

These insect and fungus enemies are the means which nature provides for keeping cut worms and creatures of that sort in check and in the history of all insect ravages this is found to be the case. In the economy of nature every creature has some enemy which preys upon it and ordinarily keeps it within bounds but occasionally a time comes when, through an abundance of food or for some other reason they develop very rapidly and get away from the control of those agencies which keep them in check and they become a plague as they have in this case. As the plague increases so do the parasites which in a short time are able to regain the mastery, and we have a return to the normal condition again.

It is gratifying to note that this is what is happening now and in a short time the cut worms plague will be a thing of the past.

However, many of the cut worms are left, and there are quite enough to destroy the young beet crop this spring unless something is done to prevent them.

The experience of last year to teach the advisability of attending to this early, and if as soon as the beet is sown the paris green and bran mash is sown between the drills of beets, either drilled between rows or sown broadcast there should be no trouble. No one who has not experienced it would believe how readily the cut worms eat this mixture and in every case where it has been tried it has been found an effectual remedy.

The mash should consist of one lb. of paris green to 50 lbs. of bran and it has been found that a mixture of double the quantity of bran has been effective. The water used for mixing should be slightly sweetened and it is best always to mix the bran with the water before adding the poison, for unless this is done the paris green sticks to the bottom. The whole mixture should be moist enough to stick together, and yet dry enough to crumble easily through the fingers.

A sharp lookout should also be kept for cut worms in the gardens and similar methods adopted to destroy them.

The worms come out to the surface to feed at night and it is therefore necessary to bury the mash well. Some of the largest beet growers tried this remedy last year and found the material only cost them about 30 cents per acre.

It is an effectual remedy and is neither costly nor difficult of application and is well worth trying by every beet grower if he would protect his crop and save himself trouble and annoyance and a deal of extra expense.

F. W. J. Johnston D. V. S. was in Raymond on Thursday for a short stay.

Coming Up Electric Lights Ordered

Manager Ellison Returns

Mr. Ellison returned on Thursday after a business visit to Eastern Canada and the Eastern States in the interests of the Sugar Co. and our new town nurellaz the electric lights, contracts are all made and it is the expectation of the hard working management that before the Sugar Factory takes the company's and public attention on Oct. 1st we will be able to press the button and see the results.

Some important business deals were affected and among other necessary arrangements was the one which insures against a scarcity of help the coming season.

Labor agencies and emigration bureaus were brought into requisition and we are assured labor will be shot in here in such quantities that a scarcity will not again occur. To this class of people or any other every encouragement will be given to grow beets, land for that purpose we be sold to them on liberal terms and at fair prices.

Mr. Ellison does not entertain a high opinion of Eastern Canada as compared with what we have here East of Winnipeg he says they can scarcely scrape enough soil together to make a railway grade, until one gets within about 50 miles of Ottawa where a marked improvement is noticeable.

Asked about Utah he says the season is cold and fur coats would be an acceptable luxury. Mr. Ellison has returned from California but her health since returning has been far from satisfactory.

Manager Ellison likes the looks of the situation here so far as has been made acquainted with it and hopes splendid results from present indication.

The election which has been ordered by the Town Council to fill the vacancies caused by resignations of Messrs. Hicks and Johnson has already brought out two candidates the name of Arthur Dahl and W. S. Rouse having been mentioned as available timber. They are good men and would fill the important places of councilmen with honors to themselves and their constituents.

Government of The Province of Alberta NOTICE TO ENGINEERS.

Notice is hereby given that an examination will be held by Mr. Jos. Buxton, of Calgary, a duly appointed Inspector of Steam Boilers for the Province of Alberta, at Calgary, May 17th and 18th, (Fire Hall), High River, May 20th, (Astoria Sample Room), Nanton, (Hotel Sample Room), Claresholm, May 25th, (Alberta Hotel Sample Room), Macleod, May 31st, (Pincher Creek, June 1st, (Arlington Hotel Sample Room), Frank, June 3rd and 4th, (Frank Hotel Sample Room), Lethbridge, June 7th and 8th, (A. R. and I. Reading Room), Raymond, June 10th, (Town Hall), Cardston, June 12th, (Caloon Sample Room).

At 9 o'clock A.M. for the purpose of giving engineers and apprentices an opportunity of qualifying for Certificate under the provisions of the Steam Boiler Act, 1906.

Application for examination should be made to the above named Inspector or to

Definite Differences

This paper has been accused of making a vicious attack upon Councilman Allen and impugning his honesty. We deny the accusations and repeat that our attack was made upon the principle of a public official mixing in public affairs to private advantage.

It is true that the act complained of is not outside a councilman's legal rights, but we did not treat this question legally we treated it morally.

If all of our acts were gauged by merely legal consequences what would be the inevitable moral result? If the law should be made our moral as well as our legal code it would mean that we might have a condition of social rottenness and yet be legally pure. We have no quarrel with legal morals our contention is against the principle of mixing public and private affairs.

We are accused also of defamation of character and of casting aspersions upon a leading man in the community, in our use of the term "moral kleptomania." We deny that accusation also but the principle of mixing public and private affairs if pursued to its logical sequence would mean that as a man acquired position and used the advantage his positions put him in possession of he would become a tyrant, and there is no tyranny worse than the muzzling of press criticism. Does any one claim that a man holding several public positions of

different kinds should confine himself strictly to what the law demands and that he should be governed by legal restraint alone, were that so it would mean a condition far worse than "moral kleptomania."

This paper is attacking no man on personal grounds but holds that it has the right of criticism of public men acting in a public capacity.

Respecting the question of personal honesty no man in the community stands higher in business honesty than does Councilman Allen, we admire his ability and industry and regard him as easily the leading mind in the community, but in this instance he has failed to observe the niceties which should mark the separation of public duty and private interest.

Alfalfa.

Next to beets there is no crop perhaps more profitable than Alfalfa.

While the ground requires good preparation the results are worth the effort. Mr. Fairfield says though the Summer Fallow is expensive and the time consumed considerable the results of experiments have abundantly proven that at the last it is good economy to sow Alfalfa on Summer Fallow.

Baled Alfalfa is selling today in Lethbridge for \$23.50 per ton, an exorbitant price, and the natural result of the hard winter just passed, but the crop was worth last Fall \$15.00 per ton and an average crop of three tons for the year is easily raised which means a gross yield of \$45 per acre.

If that yield could be maintained a man with 160 acres of Alfalfa would be measurably independent, and in fact it is a better crop than wheat at \$1.00 per bushel.

Alfalfa is worth serious consideration by our farmers, as it furnishes the means of a profitable

crop with less labor than has been bestowed on other generally raised products.

The wise foreseeth the advantage and profit they will prove to be and plant trees, then when he has planted all that he can afford to one year and has used all the ground he has been able to prepare for that purpose, he setteth manfully to work and humpeth himself for the raising of more trees. Trees will do for our country what no other growing things can and the least of these is not the beauty they add to the farms and homes and the added value they give all our possessions.

King Bros. shipped a car of potatoes last week to Moose Jaw the first that has left this country for other points than Lethbridge.

The suggestion is that farmers raise more potatoes they being a profitable crop but they should select their varieties and raise them in such quantities that purchasers can get them in car-lots, the mixed product not bringing as good prices as all one variety.

No Attention To Her Now.

"You know Smith used to pay marked attention to Miss Jones. Well, he has ceased paying attention to her."

"How's that?"
"They're married."

Where Trouble Brews

"Do you mean to say you don't have any trouble in keeping your wife dressed in the height of fashion?"

"Exactly. My trouble comes when I don't keep her dressed that way."

The really great and the genuinely good men are usually very close of kin.

Brief Locals

Prest Allen is installing a gasoline engine which supplies his hand-some home with water.

Two good apprentice girls wanted at The High Art Millinery Store.

King Bros. shipped out on Saturday a carload of potatoes to Moose Jaw. The first carload that has been shipped from the town.

The Raymond Hotel has again changed hands. T. W. Harris retiring and the firm of Maudsley and Zufelt assuming the proprietorship.

Special bargain sale all this week of undershirts, shirt waists and hosiery, now is your chance to save money at the High Art.

H. A. Jones has some settings of Orpington eggs coming from the States, from which he expects to raise some prize winners.

Miss Peace Kollins after a long visit to the Northern part of the Province has returned home.

The ladies of Raymond and vicinity are showing their appreciation of a real High Art up-to-date Millinery store by their liberal patronage. The High Art, Mrs. Simons.

Mr. E. J. Spackman of Toronto last week paid his friend Dr. Kollins a short visit. He is very favorably surprised with Sunny Southern Alberta.

Geo. C. Munns was on the street with a barrow load of cabbage rutabagas, beets and onions as an example of Canadian early vegetables on Monday.

For an artistic Bell Piano or Organ right prices and terms call on C. D. Fox, Raymond.

Mrs. Newell who had a stroke of paralysis last Winter left for Utah on the 16th for a few months visit at her old home. She is doing well. Her daughter accompanied her.

For fresh fruit and right prices call at Tel Kee's.

Mr. Wm. Palmer who was in an accident last Saturday night has suffered much with his broken rib but is now easier and resting more quietly.

House and lot for sale cheap. Easy terms, apply to Dickrick Lee. Raymond Alta

Palmer G. Edwards of London Ontario is at present a guest at the house of Dr. Kollins.

Man and wife wanted to work on ranch for particulars address Mendenhall Ranch Co. Magrath Alta.

A few aristocrats in the person of "the Hobbies" are about town. Raymond is that summer resort in the best season.

FOR RENT—100 acres, 100 brook, 40 acres summer fallow ready for crop. Apply to R. B. Glines Raymond.

Rev. John J. Cameron and family arrived last Saturday to take charge of the Presbyterian Church of this place. Mr. Cameron is a Graduate of Queens University Kingston, and has been pastor of several important congregations in Ont.

If you want to sell your farm list with C. D. Fox, & Co., Real Es

tate Agent, Raymond.
 The Chronicle has not been asked to join the Retailers Ass'n but it will apply Ass'n principles. We have some subscriptions which will soon be old enough and may vote against being paid.

FOR SALE—Sonora and Red Pile Seed Wheat at 65 cts. per bu, at the granary. A. H. Williams

Mr. Arthur McDuffee is again among us having returned to Raymond on Thursday morning to take charge of his brothers drug business. Mr. McDuffee has been in Toronto all winter where he completed a course in the Ontario College of Pharmacy.

TO RENT—A farm near Lethbridge, 200 acres 160 under cultivation. For terms apply to T. M. Evans Irrigation Office Lethbridge Alta

On Tuesday the 21st Mayor Green has called a meeting for the purpose of organizing a La Crosse and Baseball Team, and certainly every man is interested in their local sports. Everybody come out and make the meeting a success. For further particulars see posters. The meeting will be held in the School House.

The only up to date millinery store in Southern Alberta. The High Art.

FINANCEER WANTED—Any person having from \$150 up to \$500 can have two per cent per month interest on their investment as a silent partner in a good business security gilt edged perfectly safe \$2 per \$100 per month interest. Particulars on personal application to CHRONICLE OFFICE.

A new firm has come into existence in the testing of the interests of C. D. Fox and Maudsley and Zufelt. They will do real estate business as well as livery.

FOR SALE—Seed Grain, Red Pile and Sonora Wheat also 75 bu. rye. Inquire of A. H. Williams for prices.

On Thursday a labor contingent of the aggregate immigration of the Sugar Co. to about 30, arrived at the Co. Boarding House. Mr. O'Brien the betting field superintendent says there will be a gross acreage this year of nearly 3000 and that the crop will be fully up to last year's yield, and that they are all busy planting beets when the weather will permit.

Wanted to trade—640 acres of fine irrigated farm land at Market Lake, Idaho, for a herd of Alberta cattle. Over 600 acres of this is irrigable and has one of the best and never failing water rights out of the Snake River. Address: John L. Wegener, Roseland Alta.

We read of phenomenal crop yields but a few days ago while out at the Kirk Eldie Ranch owned by the Sugar Co. Mr. Dick Kinzey showed the CHRONICLE man a field of oats sown three years ago and not sown since and which had been cut every year since they were sown and which look now in the perfection of the rows as though they had been sown since but a month ago. There is every indication that this the fourth year on one sowing there will be harvested a good crop.

There are to be no more charges brought against the public, the Raymond Retailers Association having eliminated the credit system except in the cases in the cases of the big companies and ranches. The personnel of the officers is as follows: H. S. Allen Pres., L. D. King Vice Pres., H. C. Jacobs Secy Treas., Directors D. F. Stevens, F. N. Skutson, J. O. Chance H. A. Jones.

The same regulations which govern the Cardston Ass'n will be emphasized on the countenances of all the urbane personalities who attend behind the respective counters here.

It is desired by the Snake Sunday School Board that all those appointed to read papers at the coming Sunday School Convention forward

a copy of them immediately to Secretary Albert Powell, Raymond. A good attendance is looked forward to, and the Cardston Military Band under the able leadership of conductor S. S. Newton will be the leading feature on Saturday night the close of the convention.

Messrs. Chas. McCarthy and his son Wilson McCarthy were passengers on Thursday's train from Great Falls. Mr. McCarthy Sr. made a flying trip to Salt Lake to close up the deals of the Spring Cattle and Dry Cattle Ranches. Wilson has been all Winter at school and has finished the junior year in the High School course and while he left before the "exams" were held he had sufficient number of credits to insure success. There may be a few heart flutterings over Wilson's return "he's such a lovely dancer."

Special Meeting Town Council

The Council met in a special session on Monday evening.

The Secy. asked that a map of the Town be made which would serve for assessment purposes and the matter was referred to Councilman King and Secy. Budd to ascertain the cost and report.

The water master battery was in attendance which has its field of operations as follows:—

Broadway J. W. Evans,
 1st. West T. J. O'Brien
 2nd. West Wm. Kidd
 3rd. West Thos. Mendenhall
 4th. West Farham Glover
 5th. West Neils Anderson
 6th. West James Vance
 1st. East James Rodebach
 2nd. East Jas. S. Anderson
 3rd. East Clarence O'Brien

Who will prepare schedules and regulate water on said ditches, having power to decide disputes and handle matter pertaining to use of water.

J. S. Anderson was appointed to succeed Geo. C. Munns as assessor. Interest ran high at the opening of the sidewalk bids, the contract was awarded to Wm. Speakman who reports that the lumber is on the way.

An election was ordered to fill the vacancies caused by the resignations of E. B. Hicks and W. S. Johanson.

Secy. Treas. Budd was appointed receiving officer. Adjournment was taken until Monday evening next.

Apostles Clawson and Smoot and Prest. Allen returned on Thursday from the Taber country where they had been looking at a big lease with the probable intent of buying if the land proved to be an irrigating proposition. Investigation proved that as an irrigating project it was not feasible because of the expense. Ray Knights comment on what he saw is that "our land is better than that two to one." The Apostles go to Cardston for the Alberta Stake conference which begins Saturday of this week.

W. C. Simons M. L. A. was in Raymond on Monday inquiring as to need respecting road culverts and bridges. It is proposed to put a bridge in at the low coulee just before reaching the cemetery. The Stirling road is to be put in good shape in grading and approaches to bridges. Mr. Simons is investigating the best route for a permanent roadway between Raymond and Lethbridge.

C. D. Fox, Jos. Maudsley and Geo. Zufelt have formed a partnership combining the real estate and livery business. It will save the real estate business livery bills and the livery business real estate commissions.

Hay Tenders

Tenders are invited for the privilege of cutting Hay on lands owned by The Alberta Railway and Irrigation Company.

Tenders describing the lands for which permit is required and the amount offered must be lodged with the Company by the 22nd of May next, with a deposit of 10 per cent of the amount of tender.

Orders of payment, 50 per cent when tender is accepted, balance October 1st 1907. All tenders must be addressed to:—
